

## Residual Values

Published residual values assume vehicles are in "**AVERAGE**" condition at lease termination. Not included are abnormal wear & tear and the direct expense of terminating a vehicle, including a completed condition report and storing or moving the vehicle until it is sold. If the lease or loan contract does not include a termination fee for this direct expense then the residual value should be reduced.

The residual values shown in this guide should not be used for the following:

- 1) Vehicles not originally sold in the United States or vehicles not originally sold through factory authorized distributors (Gray Market).
- 2) Emergency, municipal, or law enforcement vehicles.
- 3) Delivery vehicles or taxi cabs.
- 4) Modified, customized or racing equipped vehicles.
- 5) Rental vehicles.
- 6) Five or more similar vehicles leased or sold to a single entity and terminating within 60 days of one another.

| Applicable                      Residual                      Maximum

Factory Model	add/deducts with exceptions	Value Percentage	Residualized MSRP
---------------	-----------------------------	------------------	-------------------

Number

An asterisk (\*) represents a "wild card" designation. The number or letter in this position varies depending on optional equipment (i.e., automatic transmission, sunroof, etc.).

## MRM™ Maximum Residualized MSRP

The "MRM" represents the maximum dollar MSRP that should be used when applying our Residual Value Percentages. It is possible that a manufacturer's Gross MSRP (before any discounts) may exceed the ALG MRM. The "MRM" has been developed to ensure that vehicles do not become "over accessorized" and create an unreasonable risk of retaining the predicted Residual Value. It is equivalent to the ALG Dollar Guide calculation with every listed option included.

## How to Calculate a Residual Value

Locate the vehicle to be financed. Multiply the GROSS Manufacturer's Suggested Retail Price, before any discounts, by the percentage shown in this guide. Certain dealer installed options can be added to the MSRP for residual calculation. See page 8 for more information.

$$\text{MSRP} \times \% = \text{Residual Value}$$

If there is no established MSRP (i.e., Ford Trucks) then:

$$\text{Factory Invoice} \times 115\% = \text{MSRP}$$

## Typical Lease Calculation

Term ..... 36 Month

Manufacturer's Suggested Retail Price ..... \$20,000

Capitalized Cost (Selling Price)..... \$19,000

Residual..... \$10,000

Capitalized Cost      19,000

Residual Value      - 10,000

Total Depreciation      = 9,000

Monthly Depreciation (total depreciation ÷ term)      250.00

Monthly Lease Fee (.00400 × (19,000 + 10,000))      + 116.00

Monthly Rent      366.00

Tax 6% (if applicable)      21.96

**Total Monthly Rent**      **387.96**

## Monthly Interest Formula

(Shown as Monthly Lease Fee above)

Following is the formula to determine how many dollars of interest are needed monthly to attain the yield shown:

Money			
	<u>Factor</u>	<u>Yield*</u>	
(Cap Cost + Residual)	x .00325	7.8%	
(Cap Cost + Residual)	x .00350	8.4%	
(Cap Cost + Residual)	x .00375	9.0%	
(Cap Cost + Residual)	x .00400	9.6%	
(Cap Cost + Residual)	x .00425	10.2%	
(Cap Cost + Residual)	x .00450	10.8%	
(Cap Cost + Residual)	x .00475	11.4%	
(Cap Cost + Residual)	x .00500	12.0%	
(Cap Cost + Residual)	x .00525	12.6%*	

The Yield will vary slightly depending on the length of the lease.

## **Dealer Installed Optional Equipment**

Front Air Conditioning is the only dealer installed option which may be included in the MSRP for residual value calculation. Add the dealer's suggested retail price to the MSRP on the vehicle before multiplying by the appropriate percentage.

### **Max Amount**

Air Conditioning ( <i>Front only</i> )	900
--	-----

The "Maximum Amount" for Air Conditioning may be added to the MSRP as long as the final MSRP does not exceed the MRM.

In the event that there is no dealer suggested retail price, use the dealer cost plus 15%.

## **Residuals For Van Conversions**

- 1) Conversion van residuals will be based solely on the value of the van without the conversion package.
- 2) Adjustments for low mileage and/or the North Shore Bank enhancement/action programs can be applied. See enhancement/action section on inside cover of the residual guide.

**Terms:**

**FACTORY MODEL NUMBERS** - This is the factory designated model number. An asterisk (\*) indicates a wild card designation. A number or letter found in this position will vary depending on optional equipment (i.e., transmission, sunroof, etc.).

**FINV** (Factory Invoice) – The Dealer cost of the vehicle and all the equipment shown for each car listed. It includes the destination charges (freight) and dealer holdback (if applicable).

**MILEAGE** – To adjust a residual for excess mileage use the "Mileage Adjustment Chart".

**MONEY FACTOR** – The factor used to create the desired monthly interest charge. Add the Capitalized Cost (MSRP) and Residual Value together and multiply by the appropriate factor. This formula comes close to creating a consistent yield on each lease.

**MSRP** – The gross manufacturer's suggested retail price before any optional equipment package discounts plus the destination charge (freight). If an optional equipment package is shown on the vehicle then the package price is included in the MSRP.

**OPTION PACKAGE** – As a general rule, ALG™ adds an optional equipment package to the vehicle if it is included on the majority of the vehicles being built. The package price is included in the gross MSRP.

**RESIDUAL VALUE** – An estimate of the value of the vehicle at the end of the lease. All residual values include factory installed standard equipment. Vehicles are assumed to be in "average condition" wholesale value.

## Mileage Adjustments (Lease Inception)

Residual Values are based on **15,000** miles per year. Use the mileage chart below to adjust the residual value for a low mileage lease and/or miles on the car at lease inception.

Mileage Adjustment Chart

Mileage At Lease Inception	Terms				
	24mo	36mo	48mo	60mo	All Terms
	Yearly Mileage Allowance				
12000	12000	12000	12000	15000	
0 - 500	0.8%	1.3%	1.8%	2.3%	0.0%
501 - 3000	0.4%	0.9%	1.4%	1.9%	-0.7%
3001 - 6000	0.0%	0.4%	0.9%	1.4%	-1.4%
6001 - 9000	-0.7%	0.0%	0.4%	0.9%	-2.0%
9001 - 12000	-1.4%	-0.7%	0.0%	0.4%	-2.7%
12001 - 15000	-2.0%	-1.4%	-0.7%	0.0%	-3.3%

Example: Vehicle has 6,000 miles at lease inception. Customer plans to drive 15,000 miles per year. Multiply MSRP (including factory adds) by 1.4% and subtract from residual value.
