

Eaton Vance High Income Opportunities A

Investment Style:

High Yield Bond

Investment Objective:

Corporate Bond - High Yield

Investment Strategy:

The investment seeks to provide a high level of current income; growth of capital is a secondary investment objective. The fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in fixed-income securities, including preferred securities and other hybrid securities, senior floating rate loans and secured and unsecured subordinated floating rate loans and convertible securities. It invests primarily in high yield, high risk corporate bonds. The fund invests a substantial portion of its assets in bonds issued in connection with mergers, acquisitions and other highly-leveraged transactions.

Fund Family:

Eaton Vance

Inception Date:

6/8/1994

Ticker Symbol:

ETHIX

Growth of \$100 (Since Inception)

The performance figures represent past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Call toll-free at 800-262-1122 to obtain performance data current to the most recent month-end. Returns less than one year are cumulative. Performance prior to the inception date of the share class (if any) is based on returns of an older share class, which have been adjusted for expenses.

High-yield bonds involve additional risks because of the lower credit quality of the securities. The investor should be aware of the possible higher level of volatility and increased risk of default. The information contained herein provides only a summary and will likely not contain all investment strategies, risk disclosures and other important information relevant to the fund. Please refer to the fund's summary prospectus (if available) or prospectus for more complete information about the fund.

*The net expense ratio reflects the expense ratio of the fund after applicable expense waivers or reimbursements, if any.
